

LEARN & EARN

YOUTH PATHWAYS ENTREPRENEURSHIP PROGRAM ROOTED IN SUSTAINABILITY

WHO

Ramsey County residents ages **18-30**

WHY

This paid pathways program gives the youth a record of:

- Resume-building experiences
- Professional Skills
- a Pathway forward.

Progress is tracked, allowing youth to level up as they complete more training and hone in on careers that speak to their newly found skills.

Upon completion of their time with Spark-Y, they receive a portfolio of their achievements.

WHAT

Our program offers paid professional development, empowerment, and job opportunities. Participants build a strong professional network and foundational skills for careers in agriculture, horticulture, landscaping, and more through entrepreneurial training.

This 2-5 month program provides professional development, technical training, business launch support, certifications, and apprenticeships with industry leaders.

WHERE

Work is primarily at our offices located at **681 17th Ave. NE, Minneapolis, MN, in the Casket Arts Building.**

Alternative worksites include nearby schools, gardens, the Mobile Innovation Lab, or the office of a Spark-Y partner.
